Portfolio: theykay.github.io

SUMMARY

Recent graduate from Full Stack Web Development program with a background in Industrial Design. Multidisciplinary developer seeking a future in accessibility design. Adept at working independently as well as collaborating with teams. Prepared to excel in solving complex problems.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, JQuery, Node.js, Express.js, React.js

PROJECTS

CoLab | github.com/Rxjas/CoLab | <http://afternoon-eyrie-78094.herokuapp.com>

- The brand new way to connect like-minded individuals who are looking to collaborate with others in their profession. The application currently focuses on musicians, but could be expanded to encompass professions such as filmmaking, photography, and programming
- Predominantly responsible for design/layout/styling
- Utilized Passport.js, React, Express, Mongo database

The Smartest Among Us | github.com/Diegopie/The-Smartest-Among-Us | the-smartest-among-us.herokuapp.com

- Themed app for creating, sharing and playing quizzes
- Utilized Passport.js, SQL database, Sequelize ORM

Weather Dashboard | github.com/theykay/weather-dashboard | theykay.github.io/weather-dashboard

- Displays weather for searched cities, saves previous searches as buttons for quick access
- Utilized OpenWeather API

EXPERIENCE

Leather Goods Maker

2018 – 2021

Mad Hatter Warped and Woven
